

Full-Time Occupational Therapist in School Setting:

Speak Easy Speech Therapy is seeking a full-time Occupational Therapist to join our small private practice. We are looking for qualified candidates who enjoy working in a school setting. As one of our school based team members we ensure that the assignments we offer are the right fit for you and our community partners. Some ways we support you are exploring the caseload, the number of students, the exact number of hours per week and much more! Our primary goal is your success so if your skills and professional goals are in alignment we arrange an on-site visit to review the school therapy space and discuss a transparent plan with special education administrators. We go above and beyond by helping you set up a solid foundation to build from like caseload organization, schedule creation and other office prep. What separates us from our competitors is by working for a private practice you have a home base outside of the school where you are always welcome and are never alone. So if providing support to students whose sensory or related impairment is affecting their access to the curriculum and academic progress is something you are enthusiastic about we would love to hear from you.

General Requirements

This position requires a Master's degree in Occupational Therapy, and a current State of New Hampshire Occupational Therapy license. Valid driver's license and access to a safe operating vehicle during scheduled working hours, as well as professional experience working with young children.

Benefits

We offer a competitive rate plus a comprehensive benefits package including, medical and dental insurance as well as paid time off
